The program is intended to provide a series of activities that help students develop critical thinking and problem-solving skills in a variety of content areas. It is designed to help students learn to analyze and interpret reading passages, as well as to develop their own strategies for effective reading. The program is also intended to help students develop a deep understanding of the material they read, as well as to help them develop the skills they need to succeed in school and in life. The program is designed to be used in a variety of settings, including classrooms, libraries, and homes. It is also intended to be used with a variety of students, including those with special needs. The program is designed to be used by teachers, parents, and caregivers, and is intended to help them provide the best possible education for their students.
The Jacob's Ladder Reading Comprehension Program targets reading comprehension skills in high-ability learners by moving students from lower order, concrete thinking skills to higher order, critical thinking skills. The ladders include multiple skills necessary for academic success, covering language arts standards such as sequencing, determining cause and effect, classifying, inferencing, and recognizing main ideas.

Optional Student Workbook Packs
In addition to this teacher's guide, companion student workbooks are available for the short story readings, the poetry readings, and the nonfiction readings. The student workbooks feature more space for student responses and make checking and providing feedback on student work easier than ever.
